

A4 AND LEARN STUDY TEAM LIST

The A4 and LEARN Study Leadership Teams provide the list below for standardized acknowledgement of the many individuals who have contributed to the A4 and LEARN Studies (current and former). The list consists of five parts: I. Funding Partners, II. Study Leadership Team, III. Team Leaders and Key Personnel, IV. Institutional Study Partners, and V. Study Sites. All manuscripts, including methodological papers, should include an acknowledgement of the A4 and LEARN Study Teams. This information is current as of May 1, 2023.

Funding Partners

The A4 Study was funded by a public-private-philanthropic partnership, including funding from the National Institutes of Health-National Institute on Aging (R01AG063689; U19AG010483; U24AG057437), Eli Lilly and Company, Alzheimer’s Association, Accelerating Medicines Partnership through the Foundation for the National Institutes of Health, GHR Foundation, Davis Alzheimer Prevention Program, an anonymous foundation and additional private donors to the Brigham and Women’s Hospital, with in-kind support from Avid, Cogstate, Albert Einstein College of Medicine, and the Foundation for Neurologic Diseases. The companion observational Longitudinal Evaluation of Amyloid Risk and Neurodegeneration (LEARN) Study was funded by the Alzheimer’s Association and GHR Foundation.
